Peacock fighting

孔雀打鬥

Two children are playing, not real fighting.

We almost do not touch each other except for too long tail feathers touch

New creation just for the gorgeous feathers like this

However in this case, they seem to want to show off their gorgeous plumage than doing the same cleft head maze

Notice the pure white beauty and its magnificent flying almost overwhelmed paying often with colorful plumage of all colors

And also say paying always gain
the upper hand over rival

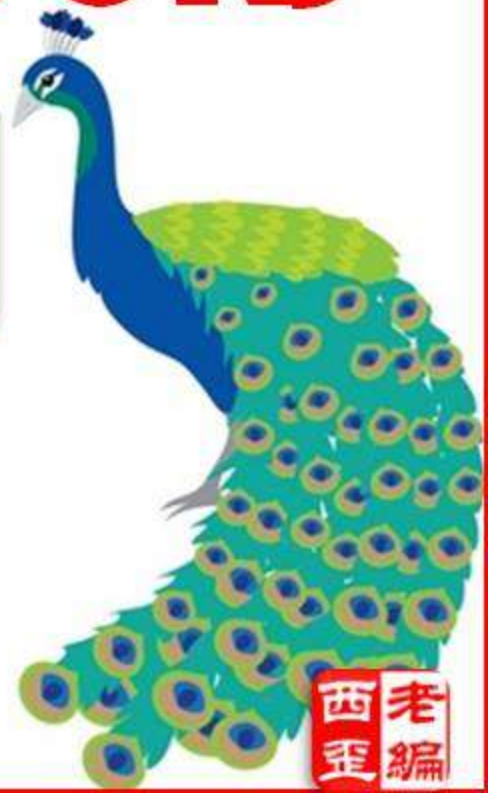

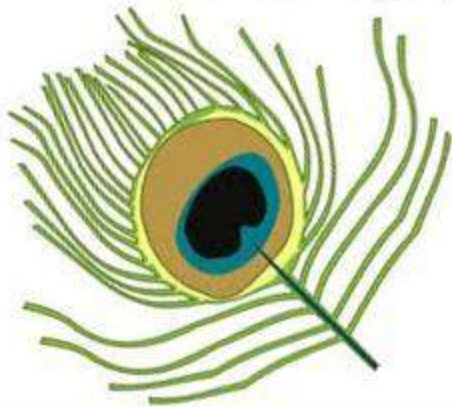

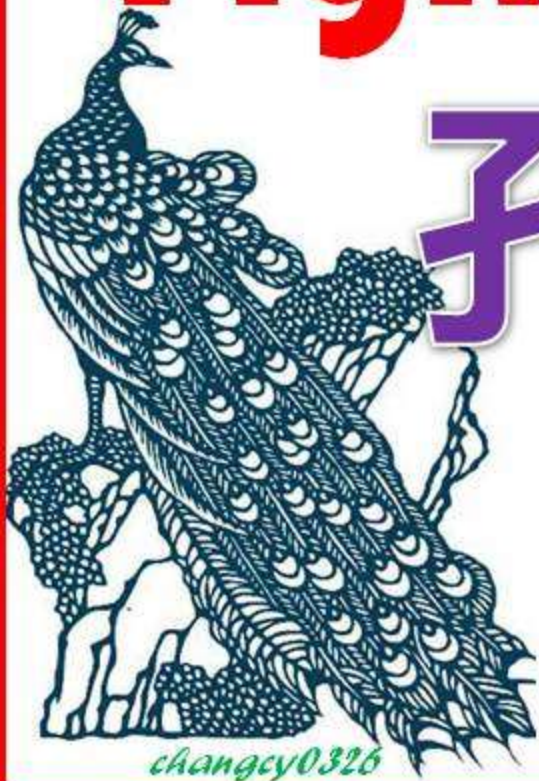

Flying Peacocks

孔雀飛翔
